

From Insight to Action: SOLVE Px™ + Investortools Integration

AI-driven predictive pricing for 900,000+ municipal bonds—delivered directly into Investortools workflows to streamline decisions, execution, and portfolio management.

SOLVE, a leading provider of pre-trade data and predictive pricing for fixed income markets, and Investortools, a trusted industry leader in fixed-income investment management technology with a platform spanning both municipal and broader fixed-income markets, have partnered to deliver a new level of innovation to the muni bond industry.

This integration solves a core industry challenge: moving seamlessly from pre-trade price discovery to post-trade portfolio management without disruption. With SOLVE predictive pricing, and pre-trade quote data delivered directly into existing workflows, portfolio managers, traders, and analysts can streamline decision-making, improve execution, and manage portfolios more efficiently.

Benefits of the SOLVE Px™ + Investortools Integration

✓ Key Benefits

Embedded Insights

Access SOLVE Px predictive pricing seamlessly within Investortools' Dealer Network (IDN) and portfolio management system—bringing smarter data directly into the tools fixed income professionals rely on every day.

Streamlined Trading Workflows

Move effortlessly from pre-trade discovery to post-trade management. The integration supports the rise of electronification in muni trading, unlocking efficiency, maximizing liquidity, and improving execution across the trade lifecycle.

Integrated Intelligence

With data and tools in one place, portfolio managers, traders, and analysts can collaborate more effectively, uncover market opportunities faster, and act with greater precision in an increasingly complex muni market.

Made for the desks that move the muni market, integrating data, tools, and decisions in one place.
