

Power Your Private Credit Research & Curriculum with Real-World Data

Give Your Faculty and Students an Edge in the Growing Private Credit Market

WHY LEADING UNIVERSITIES CHOOSE SOLVE

Private credit is one of the fastest-growing asset classes, yet most universities lack access to **real-world datasets** to analyze market trends, structure deals, and understand risk.

SOLVE's BDC Data & Analytics platform bridges that gap.

- ✓ **Comprehensive Private Credit Market Data** – Covering BDCs, direct lending, middle-market credit, and more.
- ✓ **Institutional-Grade Analytics** – Used by top private credit and private equity firms.
- ✓ **Plug-and-Play Access** – No complex integration required.

WHO BENEFITS?

Faculty & Researchers

- Gain **real-time and historical private credit data** to power groundbreaking research.
- Integrate **live market insights** into financial modeling and investment analysis.
- Provide students with the **same data used by top investment firms**.

Program Leaders & Administrators

- Strengthen **private credit, PE, and VC programs** to attract top students.
- Differentiate your university by offering access to **industry-standard tools**.
- Enhance program prestige and employer partnerships.

Career Services & Students

- Equip students with **hands-on experience** to make them more employable.
- Bridge the gap between classroom theory and industry practice.
- Improve student placement in **private credit, PE, and investment roles**.

HOW WORLD-CLASS UNIVERSITIES ARE USING SOLVE

World-class institutions in the US, Canada, and Europe are leveraging SOLVE's data to:

- ✓ Enhance **MBA private credit research projects**.
- ✓ Provide hands-on experience to students seeking **private equity careers**.
- ✓ Improve faculty access to **private credit deal data and analytics**.
