

SOLVE for Private Credit, Loans & CLOs

Clarity Powered Through Millions of Data Points

SOLVE delivers transparent, real-time intelligence across private credit, middle market loans, syndicated loans, and CLOs. With millions of contributed, observable, and historical datapoints collected every day, SOLVE transforms fragmented credit information into a unified view of the entire market.

Private Credit & BDCs

SOLVE brings structure and speed to a historically opaque market.

- BDC portfolio company data available within minutes of SEC filings
- Cross-BDC historical holdings back to 2000
- Comparable deal pricing by sector, vintage, and investment type
- Screens for refinancing, maturity walls, distressed, and non-accrual assets
- Transparent views into co-investors and valuation differences
- Standardized, curated borrower and portfolio company intelligence

Middle Market Loans

Coverage and clarity across the full MM lending landscape.

- Coverage of **~15,000** current middle market unitranche, first-lien, and second-lien loans
- Real-time observable pricing and portfolio valuation
- Full visibility into lending terms, sponsor relationships, and structure
- Deal comp benchmarking and refinance opportunity identification
- Current and historical lending practice insight across the MM market

Coverage of **~15,000** current middle market unitranche, first-lien, and second-lien loans

Syndicated Loans

Deep transparency into the broadly syndicated loan market.

- **100,000+** daily loan-related messages processed and reconciled
- **60,000+** daily quotes across thousands of syndicated loans
- Pricing history, issuance data, financials, news, and reference data
- Holder transparency and capital structure comparisons
- Composite pricing and loan market analytics
- Relative value signals across issuers, sectors, and structures

100,000+
daily loan-related messages
processed and reconciled

60,000+
daily quotes across thousands
of syndicated loans

CLOs

Structured credit transparency powered by the market's most comprehensive dataset.

- Aggregated bids, offers, BWIC price talk, and dealer color
- Pre-trade and historical datasets for trend and performance analysis
- Screening by tranche characteristics (WAL, MVOC, WAC, type)
- Similar-security search and capital structure visualization
- Full connectivity to underlying loan exposures and collateral trends
- Track New Issuance

A Unified View Across the Credit Spectrum

SOLVE links intelligence across private credit, loans, and CLOs to help credit professionals:

- Compare public, private, and structured-credit pricing
- Track borrower performance across markets
- Validate valuations using real-time and historical datapoints
- Identify refinancing and distressed opportunities
- Benchmark deal terms and structures with precision
- Bridge the gap between loan markets and CLO collateral

Why SOLVE

- Millions of daily datapoints aggregated into a single, consistent source of truth
- Transparency across markets that traditionally operate in silos
- Real-time, historical, and comparable data in one unified platform
- Trusted by buy-side, sell-side, and valuation teams globally
